EDUCATION

BS Information Technology, University of Cebu

2022–Present

HUMSS, Hindang National High School

2020–2022

TECH STACK

Languages: PHP, Python, JavaScript, Typescript, HTML, CSS, SQL

Frameworks: Next.js, Node.js, Express, TailwindCSS

Tools: Git, GitHub

Soft Skills: Communication, Leadership, Problem-Solving

PROJECTS

Capstone: e-Traffic System – React, Node.js, Firebase, ESP32, Nextion HMI

- Built an IoT-enabled traffic violation system with real-time tracking, SMS alerts, and receipt generation.
- Developed ESP32-based handheld devices with touchscreen displays for field enforcers to process violations on-site.

Authentiq - Digital Asset Verification – React, TypeScript, Vite, AI

- Created a PWA for digital asset verification using local SHA-256 hashing and AI-powered provenance analysis.
- Implemented an immutable registry ledger with timestamped cryptographic proofs.

AutoReport+SaaS - Automated Data Analytics – React, Node.js, Express, MongoDB

- Built a full-stack MERN SaaS platform for automated CSV/Excel analysis with interactive Recharts visualizations and PDF export.
- Implemented JWT authentication with admin audit logging for GDPR compliance and Stripe subscription integration.

Homeowners Subdivision Management System – C#, ASP.NET Core, Razor Pages, SQL Server

- Developed a web system with role-based access, amenity reservations, homeowner records, and announcements.
- Designed database schema, CRUD operations, and SQL joins.
- Implemented announcement posting and notifications to improve community communication.

Attendance Scanner System (RFID + Camera) – Python, Flask, OpenCV2, SQLite3

- Developed an automated attendance system combining RFID scanning and camera-based student profiling.
- Built a mobile-friendly admin dashboard for logs and report export.

HabitWork - Habit Tracking Dashboard – React, TypeScript, Vite, Recharts

- Built a habit tracker with streak calculations, categories, and Recharts visualizations.
- Designed a responsive UI with color themes and interactive analytics.

CERTIFICATIONS & TRAININGS

CCNAv7: Switching, Routing, and Wireless Essentials — Cisco Networking Academy
January 2025

CCNAv7: Introduction to Networks — Cisco Networking Academy June 2024

CONFERENCES & SEMINARS ATTENDED

10th ICT Congress — *A Decade of Transformation Through Collaboration, Camaraderie, and Synergies* April 2024

11th ICT Congress — *AI-Powered ICT: Building the Future with Responsibility* April 2025

RELATED WORK EXPERIENCE

Software Tester (Academic Training) August 2024

Sanciangko St., Kalubihan, Cebu City

- Tested software to identify and report bugs, ensuring the system functioned as expected.
- Collaborated with developers to resolve issues and improve overall software quality.
- Maintained clear documentation of test results and troubleshooting steps.
